JOB FAIR TIPS

Job fairs are a great way to meet with employers and to network with fellow students.

Our tips for attending jobs fairs:

Dress appropriately

You don't need to be dressed in a formal suit, however you should make an effort to dress smartly avoiding wearing trainers and bright coloured footwear. Dressing appropriately can help make a great first impression!

Bring a large quantity of CVs

Many employers want to see your CV so bring lots of copies with you on the day. Remember to make an appointment with a Careers Consultant to have it checked in advance!

What to bring with you

Bring a pen and notepad just in case you need to quickly write down notes. This looks more professional than using your phone.

Prepare an introduction

Be friendly and introduce yourself, as this helps show you are approachable. Be ready to discuss your career goals, qualifications, work experience, hobbies and interests. Have a set of questions to ask employers about what you want to know about. For example, "What is it like to work there?"

On the day of the fair

Approach the job fair with an open mind as you may find out about different types of jobs. Be willing to approach unfamiliar employers as this may create new opportunities you had not considered before.

Complete a feedback form

Remember to complete a feedback form as this will help us improve future jobs fairs.
